Hello and thank you for inquiring about the VA Long Beach Healthcare System ASHP Accredited Pharmacy Residency Program. The VA Long Beach residency program was first established in 1979 – and continues to be a leader in the advancement of clinical pharmacy practice. Our program offers opportunities to practice across a wide variety of settings within a large integrated healthcare system. This booklet provides valuable information about our facility, teaching programs, preceptor faculty, clinical practice, and residency program.

VALB Pharmacy is a well-established and highly respected service, integral to the VA Long Beach Healthcare System. We consider it a privilege and an honor to provide healthcare to the men and women who have dedicated their lives in service to our country. Our pharmacists actively participate at all levels of the organization including in key leadership roles and as fully integrated members of the health care team. VALB Pharmacy is recognized for developing and managing clinical programs that focus on delivering value to patients, the organization and to the community. We are passionate about our profession and steadfast in our pursuit of excellence.

As a Pharmacy resident you will serve as a key member of our patient care team, providing direct patient care and education to patients, trainees and staff. Our training and practice environment is designed for those looking to be challenged both clinically and intellectually. Our goal is to inspire and provide opportunities for trainees to develop the knowledge, skills and abilities to become principled, highly competent and confident advanced care practitioners and future leaders.

We wish you the very best as you make this important career decision. We look forward to meeting you and encourage you to consider our program.

Michael Ascari, PharmD, MS
Chief, Pharmacy Service

Patricia Chun, PharmD, BCPS
Medication Safety Officer and Residency Program Director
Pharmacy Service

Postgraduate Year One Pharmacy Residency

The Training Site

VA Long Beach Healthcare System (VALBHS) is a tertiary care facility and accredited by the Joint Commission on Accreditation of Healthcare Organizations. VALBHS is one of the most diversified tertiary health care providers in the VA. It is a teaching hospital, providing a full range of patient care services, with state-of-the-art technology as well as education and research. The medical center is a 360-bed progressive teaching facility affiliated with UCI School of Medicine and UOP, USC, UCSF, and Western Schools of Pharmacy. It encompasses Medical, Surgical, Spinal Cord Injury, Blind Rehabilitation Center, and Psychiatry Services, as well as Long-Term Care and Home-Based Primary Care. The immense Ambulatory Care Program consists of Primary Care and numerous specialty Medical and Surgical Clinics. The pharmacy department is staffed by 135 employees and provides complete clinical pharmacy services 24 hours daily, seven (7) days a week. VALBHS Pharmacy Service is committed to honoring our Veterans and providing exceptional health care. To that end, we are continually evaluating services and processes to enhance the patient experience, improve patient safety, and positively impact patient outcomes. Automation and technology are integrated into all aspects of the medication-use system such as patient-profiled automated medication storage and distribution devices (Omniceil® AMSDD), automated prescription filling (ScriptPro®) and Bar Code Medication Administration (BCMA) to enhance medication safety, reduce dispensing and administration errors, and allow pharmacists time to participate in direct patient care and cognitive services.

Tibor Rubin Medical Center (Long Beach campus of VA Long Beach Healthcare System) serves as the main practice site for residency rotations. Residents may be assigned to one rotation at a Community-Based Outpatient Clinics (CBOC) located within 25 miles of the main campus.

Geographical Information

VA Long Beach Healthcare System is centrally located within the heart of sunny Southern California, in between Los Angeles and Orange County. There is much to experience in the local area including the Aquarium of the Pacific, Belmont Shore, Disneyland, Disney's California Adventure, and many more attractions. The City of Long Beach is well-known for easy access to miles of sandy beaches, fine dining, and exciting nightlife.

VA Long Beach Pharmacy Vision

To be the benchmark of excellence and value in pharmacy practice, recognized as a leader amongst patients and peers in safety, quality and customer service. To be the preferred pharmacy practice site by our partners and stakeholders renowned for providing quality education, mentoring, and training to our staff, residents, and students.

VA Long Beach Pharmacy Mission

Our mission is to deliver safe, effective, and compassionate care to all those we serve. We aspire to create a valuable service that exceeds the expectations of patients, stakeholders, and the medical community. Our commitment is to our patients, the advancement of healthcare, and to the development of future leaders.

Core Values (I.C.A.R.E.)

Integrity: Act with high moral principle.

Commitment: Work diligently to serve veterans and other beneficiaries.

Advocacy: Be truly veteran-centric by identifying, fully considering, and appropriately advancing the interests of veterans and other beneficiaries.

Respect: Treat all those I serve and with whom I work with dignity and respect.

Excellence: Strive for the highest quality and continuous improvement.

Residency Training Program Purpose

The purpose of this PGY1 pharmacy residency program is to build upon Doctor of Pharmacy (PharmD) education and outcomes to contribute to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete this PGY1 program will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy, and pursue advanced education and training opportunities including postgraduate year two residencies.

This residency program aims to train pharmacists to provide pharmaceutical care across a variety of practice settings (e.g., ambulatory care, acute care, critical care, pharmacy benefit management, and pharmacy operations), participate as a member of the health care team, and provide education of patients, health professionals and themselves. In addition, residents will learn to perform self-monitoring and demonstrate leadership through contributions to performance improvement. Residents will be encouraged to develop an approach to the profession that can lead to life-long learning and career satisfaction.

Program Competency Areas

Upon completion of this program, the pharmacy resident will achieve the following competencies as determined by the ASHP Accreditation Standard for PGY1 Pharmacy Residency Programs:

Patient Care

Independent provision of pharmaceutical care, primarily to ambulatory, acute, critical, geriatric and long-term care patients, through participation on health care teams and working under pharmacists with scopes of practice.

Practice Advancement

Identify and implement changes needed to improve patient care and medication use systems and assess the impact of these changes. Make contributions to the current and future knowledge bank through evaluation and investigation.

Leadership

Demonstrate leadership through a positive professional attitude and contributions to improvements in patient care systems. Perform self-monitoring and self-directed learning in preparation for life-long learning. Develop attitudes and skills for a satisfying career. Promote the profession of pharmacy and demonstrate professional commitment.

Teaching and Education

Educate patients and health professionals about medication/health related issues. Communicate effectively, both verbally and in writing, with patients/ public and members of the health care team and other health professionals to build relationships and accomplish goals.
