North Florida / South Georgia Veterans Health System

PGY1 Pharmacy Residency Program

For more information
please visit our [website](#)

The residency program participates in the National Matching System and PhORCAS for the application process.

Malcom Randall VAMC

Lake City VAMC

CLINICAL TRAINING SITES

The North Florida/South Georgia Veterans Health System is a comprehensive, integrated healthcare system that provides quality clinical programs and services to Veterans. We provide a full range of comprehensive health care including: primary care, specialty care, tertiary care, long term care and palliative care. The system includes two hospitals, three large satellite outpatient clinics, and several small community-based outpatient clinics. The PGY1 residency program has two, separately accredited programs. They are located at the Malcom Randall VAMC in Gainesville (6 positions) and Lake City VAMC (2 positions). Residents in both programs will have learning experiences at both medical centers and may also have rotations at other NF/SG VHS sites.

PURPOSE

The purpose of the North Florida/South Georgia Veterans Health System PGY1 Pharmacy Residency Program is to build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.
