

# North Florida/South Georgia Veterans Health System

## PGY2 Health System Pharmacy Administration and Leadership

For more information, please visit our website:

<https://www.va.gov/north-florida-health-care/work-with-us/internships-and-fellowships/pharmacy-residency-program>

The residency program participates in the National Matching System and PhORCAS for the application process. This residency site agrees that no person at this site will solicit, accept or use any ranking-related information from any residency applicant.

### CLINICAL TRAINING SITE

The North Florida/South Georgia Veterans Health System is a comprehensive, integrated healthcare system that provides quality clinical programs and services to Veterans. We offer primary healthcare services, as well as highly specialized, technologically advanced clinical care. The system includes two hospitals, three large satellite outpatient clinics, and several small community-based outpatient clinics. The primary training site for this program is the Malcom Randall VA Medical Center in Gainesville, a 300-bed tertiary academic medical center, however, opportunities to travel to other sites within the health system and VISN are available. The facility's primary academic affiliation is with the University of Florida.

### PROGRAM STRUCTURE

The structure of the specialized residency training program is to prepare pharmacists in the delivery of patient-centered care and pharmacy clinical and operational services for ultimate roles as high-level managers, supervisors and leaders. Pharmacists completing this program will be prepared to function independently in advanced practice settings. In addition, pharmacists completing this program will have developed the skills necessary to be pharmacy leaders, promote the oversight and continued development of the profession, and effectively manage a variety of pharmacy settings. This PGY2 Health-System Pharmacy Administration and Leadership Residency conducted by North Florida/South Georgia Veterans Health System, Gainesville, FL (and surrounding areas) is accredited by ASHP.

### PURPOSE STATEMENT

PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

A PGY2 health-system pharmacy administration and leadership residency builds upon PGY1 residency graduates' competence in the delivery of patient-centered care and in pharmacy operational services to prepare residents who can assume high level managerial, supervisory, and leadership responsibilities. Areas of competence emphasized during the program include safe and effective medication-use systems, quality assurance and improvement, the management of human resources, the management of financial resources, use of technology, and advanced leadership. The residency lays the foundation for continued growth in management and leadership skills. Upon graduation, residents are prepared for a clinical or operational management/supervisory role in a variety of work settings.

#### REQUIRED LEARNING EXPERIENCES

- Orientation
- Chief Pharmacy Resident
- Residency Program Management
- Clinical
- Project
- Clinical Pharmacy Management:  
*Outpatient, Inpatient, & Specialty*
