

Clinical Training Site

The North Florida/South Georgia Veterans Health System is a comprehensive, integrated healthcare system that provides quality clinical programs and services to a diverse population of Veterans. We offer primary healthcare services, as well as highly specialized, technologically advanced clinical care. The system includes two hospitals, three large satellite outpatient clinics, and several small community-based outpatient clinics. The primary training site for this program is the Malcom Randall VA Medical Center in Gainesville, a 300-bed tertiary academic medical center, however, opportunities to travel to other sites within the health system and VISN are available. The facility's primary academic affiliation is with the University of Florida.

PGY2 Health-System Pharmacy Administration and Leadership Residency

North Florida/South Georgia Veterans Health System

U.S. Department of Veterans Affairs
North Florida / South Georgia Veterans Health System

Program Structure

The structure of the specialized residency training program is to prepare pharmacists in the delivery of patient-centered care and pharmacy clinical and operational services for ultimate roles as high-level managers, supervisors, and leaders. Pharmacists completing this program will be prepared to function independently in advanced practice settings. In addition, pharmacists completing this program will have developed the skills necessary to be pharmacy leaders, promote the oversight and continued development of the profession, and effectively manage a variety of pharmacy settings. This PGY2 Health-System Pharmacy Administration and Leadership Residency conducted by NF/SG VHS is accredited by ASHP.

Benefits

- 13 paid vacation days
- 13 paid sick days
- 11 paid holidays
- Opportunity for additional income with intermittent pharmacist appointment
- Health insurance

Application Requirements

- Letter of Intent
- Curriculum Vitae
- Three Letters of Recommendation
- Doctor of Pharmacy degree from accredited college of pharmacy and official transcript
- Expected completion of ASHP-accredited PGY1 residency program

Learning Experiences

Required Learning Experiences (4-6 weeks)

- Orientation
- Clinical Pharmacy Management: *Outpatient, Inpatient, & Specialty*
- Operations Pharmacy Management: *Outpatient & Inpatient*
- Pharmacy Procurement & Informatics
- Pharmacy Compliance
- Enhanced Leadership

Longitudinal Learning Experiences (12 months)

- Chief Pharmacy Resident
- Residency Program Management
- Clinical
- Project

Schedules will be variable and developed in conjunction with preceptor

Elective Learning Experiences (4-8 weeks and/or 12 months)

- Clinical Pharmacy Practice Office
- Program Management/ Academic Detailing
- Program Management/ Informatics

Other elective learning experiences may be developed based on resident interest and preceptor availability

Scope of Practice

We offer the opportunity for credentialing with a scope of practice to qualified PGY2 residents

Purpose Statement

PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

A PGY2 health-system pharmacy administration and leadership residency builds upon PGY1 residency graduates' competence in the delivery of patient-centered care and in pharmacy operational services to prepare residents who can assume high level managerial, supervisory, and leadership responsibilities. Areas of competence emphasized during the program include safe and effective medication-use systems, quality assurance and improvement, the management of human resources, the management of financial resources, use of technology, and advanced leadership. The residency lays the foundation for continued growth in management and leadership skills. Upon graduation, residents are prepared for a clinical or operational management/supervisory role in a variety of work settings.
