

About Boise, Idaho

Boise, the “City of Trees”, is the capital and largest metropolitan area in Idaho. Over 700,000 people live in the Treasure Valley.

The state of Idaho is known worldwide for its majestic mountain ranges, rivers and lakes, forests, and outdoor recreational experiences. Boise also allows for many different activities for a diverse community to enjoy such as: downtown life (5 minute drive or 20 minute walk from the Boise VA), breweries, wineries, smaller town atmosphere (North End) and much more! Boise is transected by the Boise River and a greenbelt walking/biking path, accessible throughout the city. Bogus Basin Ski Resort is a short drive away and miles of biking/hiking trails are located within minutes of the hospital grounds. Sporting events include BSU Bronco athletics, Idaho Steelheads hockey, and Boise Hawks baseball. Performance and Fine Arts venues include Idaho Shakespeare Festival, The Boise Contemporary Theater, The Boise Philharmonic, The Boise Art Museum, and Ballet Idaho.

Clinical Training Site

The Boise VAMC aspires to be a diverse and inclusive environment with a culture and curriculum that ensures every resident knows they belong and matter. Our residency program is committed to building an inclusive environment that celebrates and encourages the differences of our residents and co-workers. Our program strives to create a place of belonging for everyone regardless of race, ethnicity, religion, or identity.

The Boise VA is a teaching site for University of Washington & Family Practice medical residents, psychology interns, PA, NP, RN trainees, and Idaho State University pharmacy students. Each resident will have the opportunity to serve as a clinical pharmacist in our primary care training clinic, for a rural outpatient clinic, and will complete an interprofessional project related to the provision of patient care in an ambulatory setting. Residents have the opportunity to earn a Teaching & Learning Certificate.

PGY-2 Ambulatory Care Residency

Courtney Pos, Mackenzie Klipstein, Natalie Everett

About The Program

The Boise Veterans Affairs Medical Center offers an ASHP accredited PGY2 residency program in Ambulatory Care and accepts three residents each year.

2024-2025 PGY2 Residents

Program Purpose

PGY2 pharmacy residency programs build on Doctor of Pharmacy education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide opportunities to care for patients independently by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Our PGY2 Ambulatory Care residency features unique practice experiences including staffing Heart Failure, CGM and Insulin Pump Clinic, and the opportunity to care for female and transgender Veterans in a stand-alone Women's Clinic.

Program Structure

Required Experiences

- PACT Clinical Pharmacist (4 months)
- Women's Clinic (4 weeks)
- Rural Outpatient Clinic (8 weeks)
