

# POPULATION HEALTH MANAGEMENT & DATA ANALYTICS PGY2

Program Contact: Janice M. Taylor, PharmD, BCPS, PGY2 Residency Program Director  
Work Email: Janice.Taylor5@va.gov

The Veterans Integrated Service Network (VISN) 21 is dedicated to serving the pharmaceutical care needs of Veterans by focusing on evidence-based practice applied to individuals as well as small and large populations of patients. The role of the pharmacy resident is to develop into clinically competent pharmacists capable of managing a variety of populations, primarily through longitudinal experiences in population health management, data management, formulary management, and health outcomes. The PGY2 resident provides specialized support to promote the integration of information technology, informatics, and data analysis with the practice of evidence-based medicines for VISN 21 PBM projects.

## REQUIRED PGY2 ROTATIONS

## ELECTIVE PGY2 ROTATIONS

Residents will choose two electives from the following rotations:

- Advanced skills with technology or automation systems
- Advanced pharmacy benefit design and formulary management

## ABOUT US:

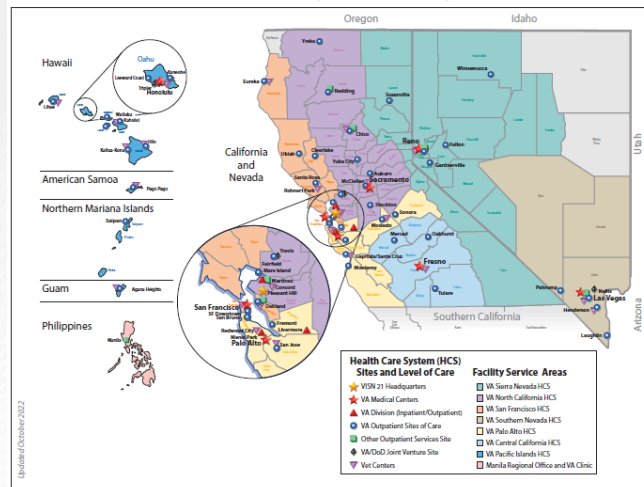

The VA Sierra Pacific Network (VISN 21) includes eight VA Medical Centers in Nevada, Northern California, Hawaii and the Philippines. Health information and medication utilization for the 350,000+ veterans in VISN 21 can be virtually analyzed by the Health Informatics Data managers and preceptors of the VISN 21 PBM. This group links the 7 Medical Centers electronic health records through data warehouse. PGY2 Residents collaborate virtually with a variety of preceptors for their longitudinal rotations.

The principle location for the resident will be in Reno, NV which is minutes from Lake Tahoe, the Sierra Nevada mountains, and world-class class skiing. Reno offers an ideal climate for outdoor activities, many entertainment opportunities, and San Francisco, Napa Valley, and Yosemite are within a three-hour drive. In addition, there will be opportunities to work throughout VISN 21 with the Data Warehouse Managers and VISN 21 Clinical Pharmacy Specialists.

Graduates of our program have pursued a variety of careers including Academic Detailing, Chief of Pharmacy, Data Management, Pharmacoeconomic, Pharmacy Informatics, Pharmacy Supervisor, and many more pathways!
