Puerto Rico is a U.S. territory located in the northeastern Caribbean Sea. In Puerto Rico you will have the opportunity to appreciate vibrant culture, historical traditions, lively music, and tropical weather. This beautiful island houses a variety of natural treasures such as beaches, national forests, and bioluminescent bays. Puerto Rico enjoys year-round summer climate with an average annual temperature of 80°F (26°C).

Veterans Affairs Caribbean Healthcare System

Post Graduate Year 1 Pharmacy Residency

Welcome to
VA Caribbean Healthcare System

Residency Description

- Collaborative program between the University of Puerto Rico School of Pharmacy and the VA Caribbean Healthcare System
- Accredited by the American Society of Health-System Pharmacists (ASHP)
- Flexible that adapts to the needs of each resident

Purpose:

Builds on Doctor of Pharmacy education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

Residency Goals

- In collaboration with the healthcare team, provide safe and effective patient care to a diverse range of patients, including those with multiple comorbidities, high risk medication regimens and multiple medications following a consistent patient care process
- Ensure continuity of care during patient transitions between care settings
- Prepare, dispense and manage medications to support safe and effective drug therapy for patients
- Demonstrate ability to manage formulary and medication-use processes, as applicable to the organization
- Demonstrate ability to evaluate and investigate practice, review data, and assimilate scientific evidence to improve patient care and/or the medication-use system
- Demonstrate leadership skills
- Demonstrate management skills
- Provide effective medication and practice related education to patients, caregivers, healthcare professionals, students and the public (individuals and groups)
- Effectively employ appropriate preceptor roles when engaged in teaching students, pharmacy technicians, or fellow health care professionals
