Applications accepted through PhORCAS

PGY-2 Psychiatric Pharmacy Residency

The purpose of the program is to develop a pharmacy practitioner with knowledge, skills, and abilities in psychiatric pharmacy who will be equipped to participate as a clinical pharmacy specialist and be an integral member of an interdisciplinary team caring for individuals with psychiatric and neuropsychiatric disorders.

Areas of emphasis will include inpatient and outpatient clinical practice in an inter-professional model, teaching, psychotropic drug safety and research. The resident will also participate in journal clubs, literature reviews, and case conferences. Precepting opportunities are offered. Additional experiences may be available depending on the resident's interests. Elective opportunities include Pain/Neurology, ER/Consult Liaison, PTSD, and Academic Detailing.
